WEST VIRGINIA BULLETIN NO. WV300-5-12

SUBJECT: LTP – WV 2005 AMA Allocations

Purpose: To provide FY 2005 AMA Initial Allocations

Expiration Date: This bulletin expires December 31, 2005

The attached list shows the FY-05 AMA applications approved for funding. Applications have been selected for funding based on the ranking points and the AMA dollars available. It is important that contracts be developed within the estimated costs. Any contract modifications require State Conservationists approval. AMA contracts will be developed in Toolkit and uploaded to ProTracts. Those applications on the list with incomplete data are tentatively approved pending completion of the application.

Field Offices maintain the official NRCS contract folder, so it is important that you properly file all contract information in the folder or file. AMA contracts are scheduled to be completed and approved by June 3, 2005. Please refer to previous WV Bulletins and the AMA Manual for additional guidance. The current AMA Manual is dated May, 2001, and is available on-line.

Please note that Manure Transfer, litter is to be delivered by the end of September and applied during the current growing season. For extended grazing, litter must be applied before the end of August. We are to follow the NRCS Standards for Prescribed Grazing and Nutrient Management. Requests for a variance of the date limits for litter to be transported will be considered on a case by case basis.

The West Virginia Conservation Agency (WVCA) in partnership with the Natural Resources Conservation Service (NRCS), Agricultural Management Assistance (AMA) Program, maintains a list of producers and truckers for the Litter Transfer Program. A link to the WVCA site is located at <http://www.wvca.us/litter/>

Since the total present sign-ups are considerably less than the 2005 allocation, we will therefore establish another sign-up and contract period for this year. It is important that allocated funding is committed during

this fiscal year to assure future program funding. Therefore, each of you is encouraged to contact cooperators who may have a need for the cost shared programs offered through AMA and explain the program to them. We will soon notify you of the dates for the next sign-up period. Also attached is a form that a participant can complete and submit to the State Conservationist for approval to begin work on a contract item prior to signing the contract by the CCC Representative.

If you have any questions, please contact Herb Andrick, ASTC-Programs at (304) 284-7560 or Butch Woodson, Resource Conservationist at (304) 284-7583.

Thanks to each of you for your efforts on the Farm Bill programs this year.

/s/William P. O'Donnell, Acting for

RONALD L. HILLIARD
Acting State Conservationist

**REQUEST FOR WAIVER TO START A PRACTICE
BEFORE CONTRACT APPROVAL**

I, _____, am interested in receiving cost share funds for application of _____. I have applied for cost sharing through the AMA program for financial assistance. I have not started on the practice yet, but I plan to proceed with the practice upon receipt of an approval.

My meritorious reasons for this request are as follows:

I understand that this does not increase my chances for receiving a contract and that I am financially responsible for all expenses incurred on this practice. Should I qualify for a contract, receive and sign one, then and only then will I be allowed to submit any bills for this practice

I understand by signing this waiver that I will not be eligible to receive payments if: (1) The contract is not approved, or (2) The practice does not meet NRCS Standards and Specifications.
